

## QP 200 Specifications

Power supply: ac90v-250v 50Hz-60Hz

Power: < 20W

Temperature sensor: imported medical far infrared sensor

Optimum temperature range of working environment: - 10 ° C +50 ° C

Distance ratio: 13:1

Temperature measurement accuracy: 1% or  $\pm 0.3C$

Temperature measurement resolution: 0.1 °C

Response time: less than 0.5 seconds

Relative humidity: 10-95% RH (no condensation, ambient temperature < 30 °C)
